SECTION VIII CARRIAGE CHARGES

Article 33 Calculation and collection of carriage charges

§ 1. Charges for carriage of passengers (ticket and seat reservation fare, charge for carriage of luggage and load luggage) shall be determined by tables of carriage charges as given in the applicable tariffs. The total travel costs shall be calculated individually on base of ticket price by adding the ticket fare applicable to carriage on the territory of each state and the fare for a seat reservation to be specified for the whole route by each through section.

The reduced ticket fare shall be calculated individually with approximation for the territory of each state and expressed with accuracy to one decimal place in mathematical terms, i.e. values less than 0.05 shall be rounded down to 0.0, and the ones of 0.05 or more shall be rounded up to 0.1.

Besides the passenger fare, the exchange and other charges may be collected from the passenger in accordance with national law provisions of the state, where the travel or carriage document has been issued.

§ 2. The total carriage charges from the departure station to destination station shall be collected from the passenger at the ticket issuing office, on the basis of the travel class and category.

§ 3. Charges for luggage or load luggage as well as the supplementary charges specified in the applicable tariffs shall be calculated and collected at the departure station.

When calculating the total carriage charge for luggage or load luggage, the departure station shall first determine the carriage charge of 1 kg of luggage or the carriage charge of 10 kg of load luggage with the use of tables of carriage charges in applicable tariffs, individually for distance traveled in regard to the territory of each state. These carriage rates, which are determined for each participating carrier, shall be multiplied by the number of kilograms of luggage or by the number of tens of kilograms of load luggage receipt shall bear the carriage cost for each participating carrier and the total carriage cost collected from the consignor of luggage or load luggage.

The total declared value shall be specified in the luggage or load luggage receipt in the currency of the departure country and in the tariff currency. The charges for declared value shall be expressed in the tariff currency and specified in carriage documents and then converted from the tariff currency to the currency of the departure country in order to be raised from the consignor.

If the declared value of luggage or load luggage exceeds 150 Swiss francs, then the charges for declared value shall be calculated by multiplying the charge rate for the declared value of 150 Swiss francs (for the particular distance) by the integer times of 150 Swiss francs from the total declared value, and with adding the rate specified in the table.

For example, the total declared value is 500 Swiss francs. The total charge for declared value shall be expressed as 150 francs multiplied by 3 (500 : 150 = 3 + 50 francs) with adding the charge rate for the declared value of 50 francs for the desired distance.

§ 4. Charges occurred en route shall be entered in luggage waybills or load luggage waybills by the carriers at the stations of occurrence and confirmed by date stamps of these stations. These charges shall be collected from the consignee at the destination station under the separate (load luggage) luggage receipt.

The destination station shall also collect charges occurred at this station.

If the destination station ascertained that the carrier at the departure station has made an undercharge error resulted from the misuse of tariffs or miscalculation of carriage charges or incorrect weighing of luggage or load luggage, then the destination station shall not collect the undercharge amount from the consignee.

If one of the carriers settling the claim is found to be guilty and satisfies the claim in total then the settlement of accounts between the carriers shall be made in accordance with regulations for settlement of accounts.

If all participating carriers have considered the claim and proved that it is impossible to assign the liable carrier for the claim under the current circumstances but the claim is well-grounded and shall be satisfied, then the indemnities shall be distributed in proportion to tariff kilometers for the actual route traveled by the consignment separately for each carrier, except for those carriers, which prove that the loss or damage was suffered not on their railway lines or through no fault of theirs unless otherwise agreed by the participating carriers.

If one or more participating carriers give a negative reply beyond the assigned period, then the carrier received the claim shall not acknowledge the statement.

If one or more participating carriers give a reply beyond the assigned period but this reply contains an acceptance of the claim, then the carrier received the claim shall resettle the amounts in compliance with regulations for settlement of accounts, if necessary.

§ 2. If the carrier received the claim forwards this claim after the expiration of the 30-day period, specified in paragraph of this Article, then this delay shall not be the cause for rejecting the claim by the carrier involved in the carriage.

§ 3. If the claimant submits other documents confirming his right to make a claim other than prescribed under Article 43.7 of SMPS, then the carrier received the claim shall decide by agreement with other carriers involved in refunding the carriage charges, whether these documents are sufficient for considering the claim.

The carrier that received the claim for compensation of damage shall specify the carrier's name and date of receipt of the claim on it and on all the documents enclosed.

If the claimant submits documents with the above mentioned particulars of considering a claim, then the carrier received the claim shall inquire what decision was made for the previous claim.

Article 38 Claims for refund in the event of damage to the life or health of a passenger

§ 1. The claim for refund in the event of damage to the life or health of a passenger shall be settled by the carrier (contractual, subsequent or substitute carrier) performing carriage at the time the damage was caused.

§ 2. If the carrier received the claim is not found to be liable for this claim, then he shall within 15 days of the date of receipt of the claim forward it to the carrier, which is really liable for damage to the life or health of a passenger, and notify the claimant about it.

SECTION XI

RELATIONS BETWEEN CARRIERS IN CASES OF INCURRENCE OF LIABILITY UNDER CARRIAGE CONTRACT

Article 39

Actions for recourse between carriers to recover the compensation paid

The carrier that has paid a compensation to the passenger, consignor or consignee under SMPS, shall have a right of recourse against other carriers involved in the carriage, in the cases as follows:

1) If the loss or damage was caused due to the fault of one carrier, then the carrier shall have the sole liability for it;

2) If the loss or damage was caused due to the fault of several carriers involved in the carriage, then each carrier shall be liable only for the portion of the loss or damage attributable to him;

3) If it cannot be proved that the loss or damage was caused due to the fault of one or more carriers and there is no possibility to establish the degree of culpability, then the carriers shall agree a procedure for the apportionment of liability;

4) If the carriers cannot come to an agreement on the procedure for the apportionment of liability, then the liability for each consignment shall be apportioned among them in proportion to the tariff kilometers travelled by the consignment when carried by each of the carriers involved, except for those, which can prove that the loss or damage was suffered through no fault of theirs.

If the carrier refunded the carriage charges under the provisions of Article 35 of SMPS, then he shall be entitled to claim compensation from those carriers, for which the charges were paid.

If the delivery period of luggage and load luggage is exceeded by several carriers, then the amount of fine for the delay shall be calculated under Article 38 of SMPS, depending on the duration of total delay in days for all the carriers and the amount of carriage charges obtained by each carrier that was guilty of delay.

The delivery period of load luggage specified in accordance with Article 32 of SMPS shall be apportioned among the carriers involved in the carriage, as follows:

1) The dispatch period shall be counted in favour of the carrier of the departure point;

2) The carriage period shall be apportioned in proportion to the tariff distance in kilometers for each state;

3) The supplementary periods for carriage of luggage and load luggage prescribed in § 2 of Article 32 of SMPS shall be apportioned in favour of the carriers in those states on whose sections the delay has occurred for the reasons specified in the paragraph mentioned.

The carrier against whom the claim for recovery of compensation or refund of carriage charges is made shall not have the right to dispute the legality of the payments made by the claiming carrier, if the amount of the compensation or carriage charges that are to be refunded were determined by judicial authority and the carrier against whom the recourse claim is made had been notified in good time of court proceeding.

A claim for recovery of compensation or carriage charges paid under the claims shall be lodged within 75 days of the date of actual payment of the amount payable under the claim.

A claim for compensation or refund determined by a court decision shall be lodged within 75 days after the date of entry into force of that decision.

After that period, the carriers shall not have the right to lodge a claim for recovery of compensation.

Upon request of the party interested, cases for recovery of compensation or refund of carriage charges, which lead to disputes between the carriers, shall be considered in court of competent jurisdiction at the defendant's location in accordance with the national law of the place for dispute resolution.

If claims for compensation or refund are made for several carriers, then the claiming carrier may, at his discretion, bring a lawsuit in a court of competent jurisdiction in the place where any defendant resides.

SECTION XII

REMARKS TO BE ENTERED IN TRAVEL AND CARRIAGE DOCUMENTS

Article 40 Remarks

§ 1. In case of non-compliance with terms of contract of carriage or changes in its contractual terms the carrier or his representative shall enter appropriate remarks in carriage document, luggage receipt or load luggage receipt in accordance with provisions of paragraphs 7-9 of Article 6 of SMPS.

§ 2. All remarks to be entered in seat reservation shall be entered in seat reservation receipt as well, if available.

§ 3. List of pre-defined remarks to be entered in carriage documents, luggage receipt or load luggage receipt can be found in Annex 7 of the Service Instructions.

Article 41 Stamps

§ 1. A station date stamp shall contain the particulars as follows:

1) Name of station at which the stamp was entered;

2) Day, month, year.

§ 2. A stamp shall be entered in the appropriate box or next to remarks that shall be confirmed by the stamp.

§ 3. The stamp shall produce a clearly visible and legible image.

All the consequences arising from an illegible image of stamp shall impose liabilities on the carrier that has set the stamp.

§ 4. Any handwriting changes on the stamp are prohibited. If an image of the date stamp is to be changed or the image is illegible, then the origin image shall be crossed and a new one shall be set next to it.

SECTION XIII EXCHANGE OF INFORMATION BETWEEN CARRIERS

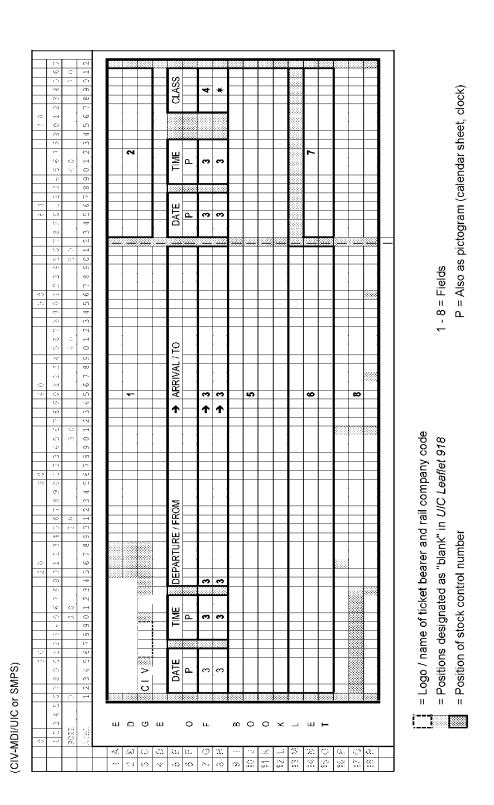

Article 42 Correspondence

Exchange of information between carriers is carried out by telegraph or otherwise (by means of communication to confirm the date of receipt of information).

Service telegrams shall be sent in accordance with OSJD leaflet 0-891 "Rules for routine maintenance of telegraph channels and for exchange of international service telegrams over the railway telegraph network between the OSJD members".
