***

Special opinion of the Republic of Azerbaijan, Republic of Belarus, Republic of Kazakhstan, Democratic People’s Republic of Korea, Republic of Moldova, Mongolia, Russian Federation and Republic of Uzbekistan on paragraph 3 of Article 17 of the Rules:

“In accordance with international practice used in all international governmental and non-governmental organisations in the field of transport (OSJD, OTIF, UNECE ITC, UNESCAP, ICAO, IMO etc.), negotiations are conducted and proposals are submitted in the working languages of the organisations, whereby the interpretation of conventions, agreements, contracts is executed in the basic language.

In the 10-year period within the OSJD, while drafting the text of the Convention on International Through Railway Traffic, the discussions, debates, submission and consideration of proposals of the OSJD member countries were conducted in the Russian language with subsequent translation into the Chinese language in respect of the text of the Convention and its Annexes, the text itself as well all the documents relating hereof (including the Rules of Procedure for the Conference).

In this regard, we believe that the consideration of all the proposals of the Participants, Observers and Regional economic integration organisations on all the provisions of the Conventions must be carried out in the working languages of the OSJD and in the English language. However, in the case of the different interpretation of the texts,
clarifications shall be made in the Russian language, which will not only expedite the adoption of the text of the Convention at the Conference but also facilitate the translation of the text into the national languages of the Participants and make much contribution as well to the creation of a single system of law for the railway transport across the Eurasian area.

We take note that the implementation of the provisions of paragraph 3 of Article 17 of the Rules in part of the non-availability of a rule to determine the basic language will require the involvement of additional experts – translators, creation of working groups on interpretation and clarification of the texts, increase the duration of the Conference’s work. Therefore, the abovementioned will cause an increase in expenditure budget of OSJD Committee.

In view of the aforesaid, we believe that the provisions of paragraph 3 of Article 17 of the Rules are unacceptable, being subject to re-consideration at the next Session of the Conference”.

**Special opinion of Georgia:**

“The delegation of Georgia considers advisable to add the following phrase to paragraph 3 of Article 15 of the Rules:

Decisions are considered adopted if the qualified majority of the Conference Participants take part in the voting”.

**Special opinion of the Democratic People’s Republic of Korea on paragraph 1 of Article 2 of the Rules:**

“The interested States that wish to participate in the Conference’s Session as Observers shall send an official letter on participation to the Conference Secretariat no later than two months before the Session opens.

The Conference Secretariat shall inform the Participants on such a request before the distribution of the Session papers.

**Under Item 3 of the Agenda**

In accordance with Article 7 “Elections of the Chairman and Vice-chairmen” and paragraph 4 of Article 15 “Adoption of Decisions” of the Rules, the Conference elected Mr. Aristov (Russian Federation) the Chairman of the Conference, and Mr. Liu Keqiang (People’s Republic of China) and Ms. Skrzydł Justyna (Republic of Poland) – Vice-chairmen.

The Chairman of OSJD Committee Mr. Tadeusz Szozda handed over the functions of the Chairman of the Conference to the Chairman of the Conference Mr. Sergey Aristov, having taken up the post of the Secretary of the Conference.
